Kilometro Rosso Innovation District

Kilometro Rosso is among the major Innovation Districts in Europe, a place where research and business meet, and which acts as a Technology Transfer Agent. Today, the campus hosts 80 Resident Partners – companies, laboratories, and research centers – with its 2,500 employees and researchers. Kilometro Rosso believes in the Open Innovation paradigm, which focuses on activating synergies among individuals with different competencies, and chooses an inclusive approach, comprehensive of businesses, universities, geographical territory, and institutions, which work together to enhance their value as individual entities, increasing their competitiveness. Inaugurated in 2009, Kilometro Rosso and its Resident Partners represent a landmark on the international research and technology transfer scene: 31 laboratories, 50 funded R&D projects for over 185 million Euros, 835 patents filed, 70,000 delegates from all over the world, 200 annual events that promote technological innovation with over 23,000 participants and more than 600,000 registrations per year.
